

### REMARKS

The specification has been amended solely to insert sequence identifiers for the amino acid sequence EILDV and to replace the current Sequence Listing with the substitute Sequence Listing filed herewith. Claims 28 and 36 are canceled. Claim 25 has been amended to incorporate the limitations of claim 28 (now canceled) and to insert a sequence identifier. No new matter has been added.

As discussed with Examiner Ungar in a telephonic interview with Applicants' attorney, Louis Myers, on June 11, 2003, the present amendments will place the application in condition for allowance. The Examiner is kindly requested to contact the undersigned by telephone should there be any remaining issues.

### New Sequence Listing Submission

Applicants submit herewith a Sequence Listing in computer readable form as required by 37 CFR §1.824. In addition, Applicants submit a substitute Sequence Listing as required under 37 CFR §1.823(a) and a statement under 37 CFR §1.821(f). Applicant requests entry of the paper copy and computer readable copy of the Sequence Listing filed herewith for the instant application. The substitute sequence listing merely adds a sequence identifier for the amino acid sequence EILDV.
